

IMPROVE Steering Committee Charter – Year 1

Evolution not revolution

Scott Copeland
IMPROVE Steering Committee
10/18/2023

We are just getting started:

- Year 1 of 3 for current Chair.
- 3 sub-committees formed, with Chairs and members.
- I will get the annual spring Steering Committee update meeting to April or May, and provide more notice.

Can we do better?

My main issues of concern:

- Continue to not analyze end of December filters (cost savings measure from ca 2013)
- Natural conditions and endpoints
- Trends across relocated sites
- IMPROVE Equation 3
- QMP/QAPP updates
